- **What to do if a Pandemic Occurs.**

If a Pandemic Occurs Stay inside your home and only got if needed (for groceries and essentials like that).

- **How to react in an Earthquake Happens**

1. Drop down onto your hands and knees before the earthquake knocks you down.
2. Cover your head and neck and your entire body if possible underneath a sturdy table or desk.
3. Hold on to your shelter or to your head or neck until the shaking stops.

- **How to react if a Flood Happens.**

1. Evacuate if told so.
2. Move to higher ground.
3. Stay where you are.
4. Do not Drink the flood water.

- What to do if a storm is coming.

Find shelter as quick as possible or get in a car with a hard top so that the storm can't do anything to you only to the things away from you.
